

IN YOUR FACE

## SOFIA AND CECILIA SUNDSTROM

The Fat Lady's Charms team has performed their best season ever! They have accomplished what no other all-girl team has done before: making it to the podium at two Millennium tournaments. They have also taken down pro teams during the prelims at three Millennium tournaments (Cyclone, London Tigers and Joy Division). They have also gotten awesome results in The Northern European Series ending up in third place in the overall ranking in division 1, 2005. Sofia started playing recball occasionally in 1999 and she introduced paintball to her twin sister. They started playing seriously a couple of years later, but swear that there's not one day that goes by when they aren't dreaming about bunkering the Olsen twins. Come on, twin on twin paintball action!
